Indonesian Ambassador to Ecuador
Parents of Raisha R. Narasmarani
Student of Psychology Double
Degree Program

My youngest daughter's dream was to graduate from a reputable University overseas majoring in psychology. As a mother, I was worried about her wellbeing if she lives far from us, because she was still young and wasn't mature enough. When I heard about the International Undergraduate Program that UI's offered, I was convinced that it was an answer to my prayers. This beneficial program will prepare students academically for the first two years, and by the time the students will leave Indonesia to continue their study overseas, they will be more than ready academically and mature enough to be responsible for completing her study and her own well-being. My daughter showed her best, and I was happy for her.

Elisa Jonathan Faculty of Medicine Double Degree in Medicine 2017

Even before I got in, I already fell in love with FKUI International medical program. My dream came true in 2016, where I got accepted through Talent Scouting. I am currently on my third year and honestly, studying medicine is never been easy. Luckily, my peers and teachers are very supportive. Our small class make us bond stronger and I thank them for making this journey bearable. Universitas Indonesia is where you can get the best and accessible education in our country. Their international program allows students to experience studying in best university overseas. By that, we certainly attain new and updated knowledge for us to bring home to Indonesia.

Arita Anandari Buntara Faculty of Economics and Business Double Degree in Management 2017

I chose International Undergraduate Program of Faculty of Economics and Business UI mainly because of the strength of the department. As one of the leading Double Degree & Exchange Programme, it was an obvious choice. I would describe it as exciting, challenging and dynamic. I think the experience and the exposure to different teaching styles has given me a different perspective about my life and what I really want to do in the near future. International Undergraduate Program of Faculty of Economics and Business offers fantastic academic & social environment. My time there was an incredibly rewarding experience!

International Undergraduate Program Universitas Indonesia

Becoming a world citizen through UI International Undergraduate Programs.

As one of the most prestigious academic institution in Asia, Universitas Indonesia provides outstanding quality in educational programs, best teaching and research programs, and international experiences. International Undergraduate Programs conducted by Universitas Indonesia are based on cooperation with reputable universities abroad. These programs use English as the medium of instruction. International Undergraduate Programs allow students to obtain single or double degree.

For single degree programs, students will be awarded a degree from Universitas Indonesia. For double degree programs, students will be awarded two degrees, one from Universitas Indonesia and another from a partner university.
