Faculty of Engineering -  
Single Degree  
Industrial Engineering 2021

As an international student from South Korea, choosing to study at Universitas Indonesia has been one of the best decisions I've made. The professors are approachable, the staff is friendly and prepared to support you, and the academic experience has been amazing with a strong focus on practical applications. Beyond learning, I've made amazing friends and had a time to broaden my perspective through cultural experiences with people from various nationalities.

KKI - 2022

The moment I received the acceptance letter from Universitas Indonesia (UI) was an electrifying jolt of confirmation that hard work makes the impossible achievable, marking the start of the most thrilling chapter of my life. While wearing the iconic Yellow Jacket, my time at UI was an explosion of transformative growth, stemming not just from tackling challenging academics and learning from expert professors, but also from diving into a vibrant student community. This involved building lifelong connections with Indonesia's brightest minds. The quiet, green campus was perfect for clear thinking and peace, while the student organizations provided a platform to lead, collaborate, and connect my passion to a real-world purpose. Ultimately, UI did not just equip me with a degree to become a dentist, it instilled the courage to dream bigger and the tools to be a positive changemaker, proving that this university is truly a crucible for future leaders.

# BECOMING A WORLD CITIZEN THROUGH UI INTERNATIONAL UNDERGRADUATE PROGRAMS

As one of the most prestigious academic institutions in Asia, Universitas Indonesia provides outstanding quality in educational programs, exceptional teaching and research programs, and valuable international experiences. The International Undergraduate Programs (International Class) at Universitas Indonesia are conducted in collaboration with reputable universities abroad and use English as the medium of instruction. These Programs provide students the opportunity to earn a single or double degree / joint degree:

- For single degree programs, students take all courses at UI with a minimum of one-semester study abroad and obtain a degree and diploma from UI upon completion of all courses
- For double degree / joint degree programs enables students to obtain two diplomas and/or two degrees upon completion of all courses both in Universitas Indonesia and Partner Universities.

International Undergraduate Programs (International Class) are offered to a high school or equivalent school graduate from the year 2022 onward with an English proficiency certificate of one of the following:

- TOEFL (www.ets.org);
- IELTS (http://ielts.org);
- FCE and CAE from Cambridge Main Suite Exams (cambridgeenglish.org)

Only TOEFL/IELTS/FCE/CAE certificates obtained no longer than 2 years from the test date are considered valid and since each faculty may apply different scores, for the English proficiency score required, please refer to the guidelines for each faculty regulation at ui.id/syaratKIUI for Indonesian students and at ui.id/iupUI for international students.

If you have or will have a high school or equivalent school certificate from an institution where English is the primary language of instruction, you do not need to submit an English language proficiency certificate. Instead, you must provide a letter from your institution confirming that English is the primary language of instruction.
